8. Only in the case of turnover generated through letting of a property or part thereof:

Central competent tax offices for value-added tax for companies whose offices or management are based abroad, are determined pursuant to § 21 section 1 sentence 2 AO (Tax Code) in conjunction with the Umsatzsteuerzuständigkeitsverordnung (Responsibility Ordinance for Value-Added Tax). If these companies are also subject to income taxation, it may therefore be the case that different finance offices are locally responsible for income and value-added tax. To prevent having to correspond with two tax offices in such a case, the tax offices may make a responsibility agreement pursuant to § 27 AO (Tax Code) to arrange that the competent tax office for income tax also handles matters relating to value-added tax for your company.

I/we agree that this type of responsibility agreement may be arranged.
